

**Proposal
for
Saint Louis University
Center for Advanced Dental Education
International Advanced Orthodontic Fellowship Program**

Introduction:

The **International Advanced Orthodontic Fellowship Program** at Saint Louis University is a prestigious opportunity exclusively designed for internationally trained orthodontists seeking advanced academic, clinical, and research exposure. This structured program offers fellows a comprehensive experience within a leading orthodontic institution in the United States, fostering professional development and academic excellence.

Through direct engagement with faculty, observation of clinical practices, participation in didactic coursework, and involvement in research, Fellows will gain unparalleled insights into modern orthodontic methodologies, preparing them to enhance their contributions to the global orthodontic community.

Program Location:

Saint Louis University
Center for Advanced Dental Education
Department of Orthodontics
3320 Rutger Street
St. Louis, MO 63104 USA

Program Structure and Duration

To accommodate a diverse range of participants, the program offers multiple duration options:

- 12-Month Fellowship (Two Semesters) – Intensive full-year program for in-depth learning and research engagement.
- 6-Month Fellowship (One Semester) – A concentrated program covering essential clinical and academic components.
- 1-Month Fellowship (Short-Term Intensive Program) – A condensed option for experienced orthodontists seeking focused exposure in a limited time frame.

Fellows are encouraged to begin their program in January or June, with flexible start dates available to accommodate individual circumstances and departmental scheduling.

Tuition and Expenses:

The tuition fees for the program are structured as follows:

- 12-Month Program: \$34,000
- 6-Month Program: \$20,000
- 1-Month Intensive Program: \$5,000

Fellows are responsible for all personal expenses, including housing, transportation, meals, and other living costs. Assistance in securing accommodations can be provided upon request.

Eligibility Criteria

Applicants must meet the following requirements:

- Completion of a **non-U.S. or non-Canadian orthodontic residency program** of at least **two years** (transcript must be submitted), OR
- Current enrollment in a **non-U.S. or non-Canadian orthodontic residency program** of at least **two years** at the post-graduate level.

All applicants must demonstrate a commitment to academic and clinical excellence.

Fellowship Curriculum and Responsibilities

1. Clinical Exposure – Fellows will participate in:

- Observation of patient care in the graduate orthodontic clinic.
- Observation of new patient screening processes.
- Attendance and active participation in weekly case conferences.
- Review of patient cases to identify valuable instructional examples.

2. Didactic Education

- Fellows will join structured didactic courses alongside orthodontic residents.
- Presentation requirements:
 - 12-Month Fellowship: Four one-hour lectures.
 - 6-Month Fellowship: Two one-hour lectures.
 - 1-Month Fellowship: One lecture (optional but encouraged).

3. Research Engagement

- Fellows will conduct an independent research project under faculty guidance.
- They may contribute to ongoing departmental research and publications.
- Participation in conferences and publication submissions is encouraged.

Enrollment Capacity

To maintain an exceptional educational experience, enrollment is **typically limited to two Fellows per year** for the **6- and 12-month programs**.

The **1-Month Intensive Fellowship** will have **limited availability** based on faculty schedules, with enrollment decisions made on a case-by-case basis.

Application Process:

Prospective Fellows must submit the following:

- Formal Application Form
- Letter of Intent (stating goals and expectations)
- Current Curriculum Vitae (CV)
- Dental School and Orthodontic Residency Diplomas (if residency has been completed)
- Two Letters of Recommendation (from faculty or professionals in orthodontics)
- Statement of Clinical Interests, Proposed Lecture Topics, and a Research Project Proposal

Program Benefits:

- Exposure to an advanced clinical environment at a world-renowned orthodontic institution.
- Strengthening of didactic, teaching, and research capabilities.
- Direct mentorship from experienced faculty and networking with orthodontic professionals.
- Certificate of Completion upon successfully meeting the program requirements.

Conclusion:

The International Advanced Orthodontic Fellowship Program at Saint Louis University offers international orthodontists a unique opportunity to gain academic enrichment, clinical exposure, and research experience within a world-class institution. Through structured learning and mentorship, Fellows will be equipped with advanced knowledge and skills to contribute to the global orthodontic community.
